what's going on guys, chadd from downtown vapes.

I just wanna do a quick review on the SCHWARTZ e-liquid “prepare to vape yogurt”

So first I want to start it off with the DOWNSIDE.

So the Downside is a blueberry yogurt, it's a Greek yogurt but it's also a candied blueberry. So it's not a fresh fruit blueberry, it's more like a little sweet and sour just from the greek yogurt. Definitely the blueberry, the sweetness of the blueberry brings everything out. So I'd definitely recommend this, if you guys wanna find a great blueberry yogurt.

Next I just wanted to show you guys is the UPSIDE. The Upside is a strawberry yogurt, strawberry is very good, it's a fresh strawberry it's not candied like the downside. also the yogurt isn't a greek yogurt. it's more smooth and subtle, it's a very good vape. I'd definitely recommend this for an all day vape if you guys are looking for one. just because how fresh that strawberry really is..

and then last but not the least, the “COMB THE DESERT” by the schwarts.

This is an intriguing vape, it's a peanut butter frozen yogurt, with notes of hazelnut. It's very good for people who like to switch up their vapor, I'd definitely will recommend this. People who like weird flavors, peanutbutter, anything in that sort of fashion, definitely good for “comb the desert”. Give that a try if you havent, we sell them here 420 Clematis Street Suite A, so come check them out, SCHWARTZ “prepare to vape yogurt”.
